To Whom It May Concern:

The City of Douglasville and the Office of the Mayor support the business, under the leadership of CEO, Mutasimbillah "Sam" Abukittah, of the Standard Enzyme Company, Breman Health Clinic, Euromed Global, and the Association of Natural Health (AONH). These companies and organizations have a longstanding relationship of 20+ years with the City of Douglasville, and we fully support their mission and their vision. They provide numerous health services that are utilized by people from all over the world. We are grateful for their outlook on helping others as this is an important factor for our community as a whole. We also appreciate all the visitors their services bring to the City of Douglasville and to this community as this promotes economic growth. On behalf of the City of Douglasville, we fully support these organizations and Mr. Abukittah as future business opportunities are pursued.

Sincerely,

  
Rochelle Robinson  
Mayor, City of Douglasville
